## Full Year 2023 Financial Highlights

(All financial result comparisons made are against the prior year)

- Revenue of \$185.4 million, a 12.4% increase
- Procedure revenue of \$141.0 million, up 9.3%
- Gross profit margin of 68.8%, an approximately 190-basis point increase
- Net loss of \$(2.8) million, representing net loss margin of (1.5)%, and diluted earnings per share attributable to biote Corp. stockholders of \$0.13 per diluted share compared to net income of \$1.3 million, representing net income margin of 0.8%, and diluted loss per share attributable to biote Corp. shareholders of \$(0.12) per diluted share
- Adjusted EBITDA1 of \$55.3 million, a 10.2% increase
- Adjusted EBITDA margin<sup>1</sup> of 29.8%

"Fourth quarter procedure revenue increased approximately 6.6%, reflecting stability for our hormone optimization therapies," said Terry Weber, Biote Chief Executive Officer. "Over the year, we also continued to expand our nationwide network, growing the net number of Biote-certified practitioners to more than 7,100.

"This past month, we were pleased to reach a settlement with Dr. Gary S. Donovitz, Biote's founder, to resolve protracted and costly litigation. Under the terms of the agreement, Biote will repurchase all of his outstanding shares and paired interests over three years at an average price of \$4.17 per share. We believe this repurchase will be accretive to shareholder value. In addition, we recently announced that our board of directors approved a separate stock repurchase program for up to \$20 million of our Class A common stock.

Ms. Weber continued, "As consumers prioritize their health and well-being, we continue to effectively address the large and underserved market for hormone optimization. In February, we began the phased launch of our new BioteRx hormone and therapeutic wellness products in the areas of body composition, sexual health and preventive wellness. Initial provider feedback has been positive, strengthening our conviction in the growth opportunity in front of us. We remain focused on accelerating the number of Biote-certified practitioners and further expanding our evidence-based product offerings to promote positive health outcomes for our patients."

## 2023 Fourth Quarter Financial Review

(All financial result comparisons made are against the prior-year period unless otherwise noted)

Revenue for the fourth quarter of 2023 was \$45.7 million, an increase of 2.7% from \$44.5 million for the fourth quarter of 2023. The increase in revenue was driven by procedure revenue growth of 6.6%, partially offset by a decline in dietary supplement revenue of 14.6%. As expected, fourth quarter dietary supplement revenue decreased, primarily as a result of one of the Company's larger dietary supplement distributors exiting the nutraceutical business during the quarter.

Gross profit margin for the fourth quarter of 2023 was 69.4% compared to 65.3% for the fourth quarter of 2022. The increase in gross profit margin was primarily due to product mix and effective cost management.

Operating income for the fourth quarter of 2023 was \$5.5 million, compared to \$7.3 million for the fourth quarter of 2022. Operating income in the fourth quarter of 2023 decreased as growth in revenue and improved gross profit were more than offset by higher expenses, primarily for professional services.

Net income for the fourth quarter of 2023 was \$12.1 million, representing a margin of 26.4%, and diluted earnings per share attributable to biote Corp. stockholders of \$0.18, compared to net income of \$12.8 million, representing a margin of 28.8%, and diluted earnings per share attributable to biote Corp. stockholders of \$0.18, for the fourth quarter of 2022. Net income for the fourth quarter of 2023 and 2022 included a gain of \$5.4 million, respectively, due to a change in the fair value of the earnout liability. Additionally, net income for the fourth quarter of 2022 included a gain of \$0.6 million due to a change in the fair value of the warrant liability.

Adjusted EBITDA for the fourth quarter of 2023 was \$13.6 million, with an Adjusted EBITDA margin of 29.7%, compared to Adjusted EBITDA of \$13.1 million, with an Adjusted EBITDA margin of 29.5% for the fourth quarter of 2022.

#### 2023 Full Year Financial Review

(All financial result comparisons made are against the prior year unless otherwise noted)

Revenue for 2023 was \$185.4 million, an increase of 12.4% from \$165.0 million in 2022. The increase was driven by growth in both procedure revenue and dietary supplements revenue.

Gross profit margin for 2023 was 68.8% compared to 66.9% for 2022. The increase in gross profit margin was primarily due to product mix and effective cost management.

Operating income for 2023 was \$28.7 million, compared to an operating loss of \$(60.7) million for 2022. Operating income in 2023 included \$9.1 million in stock compensation expense, \$8.5 million in legal and settlements expense unrelated to on-going business and \$6.1 million in transaction-related, merger and acquisition and other costs. Excluding these costs, operating income would have been \$52.4 million in 2023. Operating loss in 2022 included \$82.2 million in stock compensation expense, \$4.2 million in legal and settlements expense unrelated to on-going business and \$22.3 million in transaction-related and other costs. Excluding these costs, operating income would have been \$48.0 million in 2022.

Net loss for 2023 was \$(2.8) million, representing a margin of (1.5)%, and diluted earnings per share attributable to biote Corp. stockholders of \$0.13, compared to net income of \$1.3 million, representing net income margin of 0.8%, and diluted loss per share attributable to biote Corp. shareholders of \$(0.12) in 2022.

Adjusted EBITDA for 2023 was \$55.3 million, with an Adjusted EBITDA margin of 29.8% compared to Adjusted EBITDA of \$50.1 million, with an Adjusted EBITDA margin of 30.4% for 2022.

#### 2024 Financial Outlook

"As we continue to execute on our strategy, we are forecasting solid financial performance in 2024, with an expectation for stronger revenue growth in the back half of the year," concluded Ms. Weber.

(\$ in millio	ns)	2024 Guidance Ranges
Revenue	)	\$200-\$204
Adjusted	I EBITDA <sup>2</sup>	\$60-\$63

The Company's 2024 financial guidance includes: (i) procedure revenue growth in the first half of 2024 similar to that of the second half of 2023 with improved growth in the back half of 2024; (ii) a return to nutraceutical revenue growth in the second half of 2024; (iii) expected modest contributions from new therapeutic wellness products; and (iv) a second-half margin contribution from the anticipated impact of the acquisition of Asteria Health.

First half 2024 consolidated year-on-year revenue growth is expected to be in the low-single digits, with significant improvement expected in the second half of 2024. Total revenue growth in the first half of 2024 is expected to be impacted by the transition in the nutraceutical distribution channel and timing of seasonal promotions.

#### **Conference Call:**

Biote management will host a conference call to review these results and provide a business update beginning at 5:00 p.m. ET on Tuesday, March 12, 2024. A replay of the webcast will be available on the Events page of the Biote Investor Relations website, at ir.biote.com, shortly after the event concludes.

#### **Discussion of Non-GAAP Financial Measures**

To provide investors with additional information regarding our financial results, Biote has disclosed Adjusted EBITDA, a non-GAAP financial measure that it calculates as net income before interest, taxes and depreciation and amortization, further adjusted to exclude stock-based compensation, litigation expenses, legal settlements, transaction-related expenses, merger and acquisition expenses, fair value adjustments to certain equity instruments classified as liabilities and other expenses. Below we have provided a reconciliation of Adjusted EBITDA to net income, the most directly comparable GAAP financial measure.

We present Adjusted EBITDA and Adjusted EBITDA margin because it is a key measure used by our management to evaluate our operating performance, generate future operating plans and determine payments under compensation programs. Accordingly, we believe that Adjusted EBITDA and Adjusted EBITDA margin provide useful information to investors and others in understanding and evaluating our operating results in the same manner as our management.

Adjusted EBITDA and Adjusted EBITDA margin have limitations as analytical tools, and you should not consider them in isolation or as a substitute for

analysis of our results as reported under GAAP. Some of these limitations are as follows:

- Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be
  replaced in the future, and Adjusted EBITDA and Adjusted EBITDA margin do not reflect cash capital expenditure
  requirements for such replacements of our assets:
- Adjusted EBITDA and Adjusted EBITDA margin do not reflect changes in, or cash requirements for, our working capital needs; and
- Adjusted EBITDA and Adjusted EBITDA margin do not reflect tax payments that may represent a reduction in cash available to us.

In addition, Adjusted EBITDA and Adjusted EBITDA margin are subject to inherent limitations as it reflects the exercise of judgment by Biote's management about which expenses are excluded or included. A reconciliation is provided in the financial statement tables included below in this press release for each non-GAAP financial measure to the most directly comparable financial measure stated in accordance with GAAP. Because of these limitations, you should consider Adjusted EBITDA and Adjusted EBITDA margin alongside other financial performance measures, including net income and our other GAAP results.

### Forward-Looking Non-GAAP Financial Measures

The Company does not provide a reconciliation of forward-looking non-GAAP financial measures to their comparable GAAP financial measures because it could not do so without unreasonable effort due to the unavailability of certain information needed to calculate reconciling items. For example, the Company has not included a reconciliation of projected Adjusted EBITDA to GAAP net income (loss), which is the most directly comparable GAAP measure, for the periods presented in reliance on the unreasonable efforts exception provided under Item 10(e)(1)(i)(B) of Regulation S-K. The Company's projected Adjusted EBITDA excludes certain items that are inherently uncertain and difficult to predict including, but not limited to, share-based compensation expense, income taxes, due diligence expenses and legal expenses. Due to the variability, complexity and limited visibility of the adjusting items that would be excluded from projected Adjusted EBITDA in future periods, management does not forecast them for internal use and therefore cannot create a quantitative projected Adjusted EBITDA to GAAP net income (loss) reconciliation for the periods presented without unreasonable efforts. A quantitative reconciliation of projected Adjusted EBITDA to GAAP net income (loss) for the periods presented would imply a degree of precision and certainty as to these future items that does not exist and could be confusing to investors. From a qualitative perspective, it is anticipated that the differences between projected Adjusted EBITDA to GAAP net income (loss) for the periods presented will consist of items similar to those described in the financial tables later in this release, including, for example and without limitation, share-based compensation expense, income taxes, due diligence expenses and legal expenses. The timing and amount of any of these excluded items could significantly impact the Company's GAAP net income (loss) for a particular period. When planning, forecasting and analyzing future periods, the Company does so primari

# **Forward-Looking Statements**

This press release contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Some of the forward-looking statements can be identified by the use of forwardlooking words. Statements that are not historical in nature, including the words "may," "can," "should," "will," "estimate," "plan," "project," "forecast," "intend," "expect," "hope," "anticipate," "believe," "seek," "target," "continue," "could," "might," "ongoing," "potential," "predict," "would" and other similar expressions, are intended to identify forward-looking statements. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual results or developments to differ materially from those expressed or implied by such forward-looking statements, including but not limited to: the potential that our acquisition of Asteria Health is not consummated; the success of our dietary supplements to attain significant market acceptance among clinics, practitioners and their patients; our customers' reliance on certain third parties to support the manufacturing of bio-identical hormones for prescribers; our and our customers' sensitivity to regulatory, economic, environmental and competitive conditions in certain geographic regions; our ability to increase the use by practitioners and clinics of the Biote Method at the rate that we anticipate or at all; our ability to grow our business; the significant competition we face in our industry; the impact of strategic acquisitions and the implementation of our growth strategies; our limited operating history; our ability to protect our intellectual property; the heavy regulatory oversight in our industry; changes in applicable laws or regulations; the inability to profitably expand in existing markets and into new markets; the possibility that we may be adversely impacted by other economic, business and/or competitive factors, including recent bank failures; and future exchange and interest rates. The foregoing list of factors is not exhaustive. You should carefully consider the risks and uncertainties described in the "Risk Factors" section of the Biote's Quarterly Report on Form 10-Q for the fiscal guarter ended September 30, 2023 and other documents filed by Biote from time to time with the Securities and Exchange Commission. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Readers are cautioned not to put undue reliance on forward-looking statements, and Biote assumes no obligation and does not intend to update or revise these forwardlooking statements, whether as a result of new information, future events, or otherwise. Biote does not give any assurance that it will achieve its expectations.
