FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2021

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 001-40128

HAYMAKER ACQUISITION CORP. III

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

85-1791125
(IRS Employer
Identification No.)

501 Madison Avenue, Floor 12
New York, NY 10022
(Address of principal executive offices and zip code)

(212) 616-9600
(Registrant's telephone number, including area code)

N/A
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol(s)</u>	<u>Name of each exchange on which registered</u>
Units, each consisting of one share of Class A Common Stock, par value \$0.0001 per share, and one-fourth of one Redeemable Warrant Class A Common Stock, par value \$0.0001 per share	HYACU	The NASDAQ Stock Market LLC
Warrants, each exercisable for one share of Class A Common Stock for \$11.50 per share	HYAC	The NASDAQ Stock Market LLC
	HYACW	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of August 13, 2021, there were 31,750,000 shares of the registrant's Class A common stock, par value \$0.0001 per share, issued and outstanding, and 7,937,500 shares of the registrant's Class B common stock, par value \$0.0001 per share, issued and outstanding.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS AND LIQUIDITY

Haymaker Acquisition Corp. III (the “Company” or “Haymaker”) is a blank check company incorporated in Delaware on July 6, 2020. The Company was formed for the purpose of entering into a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (a “Business Combination”).

The Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of June 30, 2021, the Company had not commenced any operations. All activity for the six months ended June 30, 2021 relates to the Company’s formation, the initial public offering (“Initial Public Offering”) as described below, and since the closing of the Initial Public Offering, the search for a prospective initial Business Combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income or gains on investments on the cash and investments held in a trust account from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on March 1, 2021. On March 4, 2021, the Company consummated the Initial Public Offering of 30,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), at \$10.00 per Unit, generating gross proceeds of \$300,350,000 (which amount includes \$10,500,000 of the deferred underwriting commissions, and \$350,000 of proceeds from the sale of Private Placement Warrants in conjunction with the partial exercise of the underwriters’ over-allotment option, which is payable to them upon the closing of the over-allotment option) and the sale of the Private Placement Warrants, was placed in a trust account (the “Trust Account”).

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 5,333,333 warrants (the “Private Placement Warrants”) at a price of \$1.50 per Private Placement Warrant in a private placement to Haymaker Sponsor III, LLC (the “Sponsor”) generating gross proceeds of \$8,000,000, which is described in Note 4.

The underwriters exercised the over-allotment option in part and on March 5, 2021, 1,750,000 additional Units were sold at an offering price of \$10.00 per Unit, generating gross proceeds of \$17,500,000. In connection with the exercise of the over-allotment option, on March 5, 2021, the Company sold 233,333 Private Placement Warrants (“Additional Private Placement Warrants”) to the Sponsor at a purchase price of \$1.50 per Private Placement Warrant, generating gross proceeds of \$350,000. As a result, an additional \$17,500,000 (which amount includes \$612,500 of the underwriters’ deferred discount) was placed in the Trust Account. As a result of the partial exercise of the over-allotment option to purchase 1,750,000 Units, the Sponsor forfeited 687,500 Founder Shares on March 5, 2021 in order to maintain ownership of 20.0% of issued and outstanding shares of the Company. The Founder Shares forfeited by the Sponsor were cancelled by the Company.

Following the closing of the Initial Public Offering and partial exercise of the over-allotment, an amount of \$317,500,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units and the sale of the Private Placement Warrants (as defined in Note 4) was placed in the Trust Account and will be invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940, as amended (the “Investment Company Act”), which invest only in direct U.S. government treasury obligations, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

Transaction costs related to the issuances described above amounted to \$17,986,366, consisting of \$6,350,000 of cash underwriting fees, \$11,112,500 of deferred underwriting fees and \$523,866 of other offering costs. In addition, at June 30, 2021, \$484,090 of cash was held outside of the Trust Account and is available for working capital purposes.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, although substantially all of the net proceeds of the Initial Public Offering are intended to be generally applied toward consummating an Initial Business Combination. The Initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the Initial Business Combination. Furthermore, there is no assurance that the Company will be able to successfully effect an Initial Business Combination.

The Company, after signing a definitive agreement for an Initial Business Combination, will either (i) seek stockholder approval of the Initial Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the Initial Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable, or (ii) provide stockholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. The decision as to whether the Company will seek stockholder approval of the Initial Business Combination or will allow stockholders to sell their Public Shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval, unless a vote is required by law or under NASDAQ rules. If the Company seeks stockholder approval, it will complete its Initial Business Combination only if a majority of the outstanding shares of common stock voted are voted in favor of the Initial Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001 either immediately prior to or upon consummation of the Initial Business Combination. In such case, the Company would not proceed with the redemption of its Public Shares and the related Initial Business Combination, and instead may search for an alternate Initial Business Combination.

Notwithstanding the foregoing redemption rights, if the Company seeks stockholder approval of the Initial Business Combination and the Company does not conduct redemptions in connection with the Initial Business Combination pursuant to the tender offer rules, the Company's amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares or more of the Public Shares, without the prior consent of the Company..

The Sponsor has agreed to waive (i) redemption rights with respect to any Founder Shares and Public Shares held in connection with the completion of an initial Business Combination, (ii) redemption rights with respect to any Founder Shares and Public Shares held in connection with a stockholder vote to approve an amendment to an amended and restated certificate of incorporation to modify the substance or timing of our obligation to allow redemption in connection with an initial Business Combination or to redeem 100% of Public Shares if the Company has not consummated an initial Business Combination within 24 months from the closing of the Initial Public Offering or with respect to any other provisions relating to stockholders' rights or pre-initial Business Combination activity and (iii) rights to liquidating distributions from the Trust Account with respect to any Founder Shares held if the Company fails to complete an initial Business Combination within 24 months from the closing of the Initial Public Offering or any extended period of time that the Company may have to consummate an initial Business Combination.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

The Company will have until March 4, 2023 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of remaining stockholders and board of directors, liquidate and dissolve, subject, in each case, to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company’s warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with an Initial Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the Initial Business Combination, including interest but less taxes payable. As a result, such shares of Class A common stock will be recorded at redemption amount and classified as temporary equity upon the completion of the Initial Public Offering, in accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 480 - *Distinguishing Liabilities from Equity*.

Pursuant to the Company’s amended and restated certificate of incorporation, if the Company is unable to complete the Initial Business Combination within 24 months from the closing of the Initial Public Offering, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to us to pay the Company’s franchise and income taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. The Sponsor and the Company’s officers and directors have entered into a letter agreement with the Company, pursuant to which they agreed to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the Initial Business Combination within 24 months of the closing of the Initial Public Offering. However, if the Sponsor or any of the Company’s directors, officers or affiliates acquire shares of Class A common stock in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the Initial Business Combination within the prescribed time period.

The Trust Account

The proceeds held in the Trust Account will be invested only in U.S. government treasury bills with a maturity of one hundred eighty (180) days or less or in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940 and that invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of the Initial Business Combination or (ii) the distribution of the Trust Account proceeds as described below. The remaining proceeds outside the Trust Account may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

The Company's certificate of incorporation provides that, other than the withdrawal of interest to pay taxes, if any, none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the Initial Business Combination; (ii) the redemption of any Public Shares sold in the Initial Public Offering that have been properly tendered in connection with a stockholder vote to amend the Company's certificate of incorporation to modify the substance or timing of its obligation to redeem 100% of such shares of Class A common stock if it does not complete the Initial Business Combination within 24 months from the closing of the Initial Public Offering; and (iii) the redemption of 100% of the shares of Class A common stock included in the Units being sold in the Initial Public Offering if the Company is unable to complete an Initial Business Combination within 24 months from the closing of the Initial Public Offering (subject to the requirements of law). The proceeds deposited in the Trust Account could become subject to the claims of the Company's creditors, if any, which could have priority over the claims of the Company's public stockholders.

Indemnity

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriter of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Going Concern Consideration

As of June 30, 2021, the Company had \$484,090 in cash held outside of the Trust Account and working capital of \$709,775. The Company has incurred and expects to continue to incur significant costs in pursuit of its acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of time within one year after the date that the financial statements are issued. Management plans to address this uncertainty through the Business Combination as discussed above. There is no assurance that the Company's plans to consummate the Business Combination will be successful or successful within the Combination Period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

Risks and Uncertainties

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout China and other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic”. The COVID-19 outbreak has adversely affected, and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases) that could adversely affect, the economies and financial markets worldwide, and the business of any Business Combination candidate with which we seek to consummate, or consummate, a Business Combination could be materially and adversely affected. Furthermore, we may be unable to complete a Business Combination if continued concerns relating to COVID-19 continues to restrict travel, limit the ability to have meetings with potential investors or the target company’s personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for a Business Combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases) continue for an extensive period of time, our ability to consummate a Business Combination, or the operations of a target business with which we ultimately consummate a Business Combination, may be materially adversely affected. In addition, our ability to consummate a transaction may be dependent on the ability to raise equity and debt financing which may be impacted by COVID-19 and other events (such as terrorist attacks, natural disasters or a significant outbreak of other infectious diseases), including as a result of increased market volatility, decreased market liquidity in third-party financing being unavailable on terms acceptable to us or at all.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Company are presented in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented. The accompanying unaudited condensed financial statements should be read in conjunction with the Company’s final prospectus for its Initial Public Offering as filed with the SEC on March 3, 2021. The interim results for the periods presented are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future periods.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of the financial statement in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statement, which management considered in formulating its estimate, could change in the near term due to one or more future events. Accordingly, the actual results could differ significantly from those estimates.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of June 30, 2021 and December 31, 2020.

Investments Held in Trust Account

At June 30, 2021, the assets held in the Trust Account were held in money market funds, which are invested in U.S. Treasury securities.

Common Stock Subject to Possible Redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification ("ASC") Topic 480 "Distinguishing Liabilities from Equity." Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. The Company's common stock features certain redemption rights that are considered to be outside of the Company's control and subject to occurrence of uncertain future events. As of June 30, 2021 and December 31, 2020, 28,805,260 and no shares of Class A common stock subject to possible redemption are presented at redemption value as temporary equity, outside of the stockholders' equity section of the Company's balance sheet, respectively.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

Offering Costs associated with the Initial Public Offering

The Company complies with the requirements of ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A - *Expenses of Offering*. Offering costs consist principally of professional and registration fees incurred through the balance sheet date that are related to the Initial Public Offering. Offering costs directly attributable to the issuance of an equity contract to be classified in equity are recorded as a reduction in equity. Offering costs for equity contracts that are classified as assets and liabilities are expensed immediately. The Company incurred offering costs amounting to \$17,986,366 as a result of the Initial Public Offering (consisting of \$6,350,000 of cash underwriting discounts, \$11,112,500 in deferred underwriting fees and \$523,866 of other offering costs). As such, the Company recorded \$17,019,720 of offering costs as a reduction of equity in connection with the shares of Class A common stock included in the Units. The Company expensed \$966,646 of offering costs in connection with the Public Warrants included in the Units that were classified as liabilities.

Warrant Liabilities

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in ASC 480, *Distinguishing Liabilities from Equity* ("ASC 480") and ASC 815. The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own common stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations. The fair value of the Public Warrants was estimated using a Monte Carlo simulation approach and the fair value of the Private Warrants was estimated using a Modified Black-Scholes model (see Note 9).

Income Taxes

The Company complies with the accounting and reporting requirements of ASC Topic 740 - *Income Taxes*, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits, if any, as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of June 30, 2021 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Net Earnings (Loss) Per Share of Common Stock

Net income per share is computed by dividing net earnings by the weighted-average number of shares of common stock outstanding during the period.

The Company's statement of operations includes a presentation of income per share for common shares subject to possible redemption and applies the two-class method in calculating income per share. Net earnings per common

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

share, basic and diluted, for Class A redeemable common stock is calculated by dividing the allocable unrealized gain on investments held in the Trust Account, net of applicable franchise and income taxes, by the weighted average number of Class A redeemable common stock outstanding since original issuance. Net income per share, basic and diluted, for Class A and Class B non-redeemable common stock is calculated by dividing the net income, adjusted for earnings attributable to Class A redeemable common stock, by the weighted average number of Class B non-redeemable common stock outstanding for the period. Class B non-redeemable common stock includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

The following table reflects the calculation of basic and diluted net income (loss) per common share (in dollars, except per share amounts):

	Three Months Ended June 30, 2021 (Unaudited)	Six Months Ended June 30, 2021 (Unaudited)
<i>Redeemable Class A Common Stock</i>		
Numerator: Earnings allocable to Redeemable Class A Common Stock		
Unrealized (loss) gain on investments held in Trust Account	\$ (7,824)	\$ 5,245
Franchise tax expense	—	(5,245)
Net (loss) earnings	<u>\$ (7,824)</u>	<u>\$ —</u>
Denominator: Weighted average Redeemable Class A Common Stock		
Basic and diluted weighted average shares outstanding, Redeemable Class A Common Stock	<u>28,805,260</u>	<u>28,805,260</u>
Basic and diluted net earnings per share, Redeemable Class A Common Stock	<u>\$ 0.00</u>	<u>\$ 0.00</u>
<i>Non-Redeemable Class A and Class B Common Stock</i>		
Numerator: Net income minus net earnings		
Net income	\$ 13,238,824	\$ 9,295,450
Net earnings	7,824	—
Non-redeemable net income	<u>\$ 13,246,648</u>	<u>\$ 9,295,450</u>
Denominator: Weighted average Non-Redeemable Class A and Class B Common Stock		
Basic and diluted weighted average shares outstanding, Non-Redeemable Class A and Class B Common Stock	<u>10,882,240</u>	<u>10,882,240</u>
Basic and diluted net income per share, Non-Redeemable Class A and Class B Common Stock	<u>\$ 1.22</u>	<u>\$ 0.85</u>

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. The Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

Fair Value of Financial Instruments

The Company applies ASC Topic 820, *Fair Value Measurement* (“ASC 820”), which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. ASC 820 defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company’s principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in ASC 820 generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity’s own assumptions based on market data and the entity’s judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The carrying amounts reflected in the balance sheet for cash, prepaid expenses and accrued offering costs approximate fair value due to their short-term nature.

Level 1 — Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities.

Level 2 — Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as direct or indirect observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 — Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40)* (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s financial statements.

NOTE 3. INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 30,000,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of the Company’s Class A common stock, \$0.0001 par value, and one-fourth of one redeemable warrant (“Redeemable Warrant”). Each whole Redeemable Warrant is exercisable to purchase one share of Class A common stock and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Redeemable Warrants will become exercisable on the later of 30 days after the completion of the Initial Business Combination or 12 months from the closing of the Initial Public Offering. Each whole Redeemable Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50 (see Note 7).

In addition, the 8,625,000 shares of Class B common stock of the Company (the “Founder Shares”) held by the Sponsor (prior to the exercise of the over-allotment) included an aggregate of up to 1,125,000 Founder Shares subject to forfeiture by the Sponsor to the extent that the underwriters’ over-allotment option was not exercised in full, so that the Sponsor would own 20.0% of issued and outstanding common stock. As a result of the partial exercise of the over-allotment option to purchase 1,750,000 Units, the Sponsor forfeited 687,500 Founder Shares on March 5, 2021 in order to maintain ownership of 20.0% of issued and outstanding shares of the Company. The Founder Shares forfeited by the Sponsor were cancelled by the Company.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 5,333,333 warrants at a price of \$1.50 per warrant in a private placement (the “Private Placement Warrants”) (\$8,000,000 in the aggregate). On March 4, 2021, the underwriters notified the Company of their intention to exercise the over-allotment option in part, resulting in the Sponsor paying an aggregate of \$350,000 in exchange for an additional 233,333 Private Placement Warrants. Each Private Placement Warrant is exercisable to purchase one share of Class A common stock at a price of \$11.50 per share. The proceeds from the sale of the Private Placement Warrants were added to the net proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants.

The Sponsor and the Company’s officers and directors have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Placement Warrants until 30 days after the completion of the Initial Business Combination.

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In July 2020, the Company issued an aggregate of 8,625,000 shares of Class B common stock to the Sponsor (“Founder Shares”) for an aggregate purchase price of \$25,000. The Founder Shares will automatically convert into Class A common stock upon the consummation of the Initial Business Combination on a one-for-one basis, subject to adjustments as described in Note 6. Holders of Founder Shares may also elect to convert their shares of Class B convertible common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time.

The Initial Stockholders have agreed not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the Initial Business Combination or (B) subsequent to the Initial Business Combination, (x) if the last sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the Initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, stock exchange or other similar transaction that results in all of the Company’s stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Pursuant to the letter agreement, the Sponsor, officers and directors have agreed to vote any Founder Shares held by them and any Public Shares purchased during or after this offering (including in open market and privately negotiated transactions) in favor of the Initial Business Combination.

Administrative Services Agreement

The Company entered into an agreement whereby, commencing on March 4, 2021 through the earlier of the consummation of the Initial Business Combination or the Company’s liquidation, the Company will pay the Sponsor a monthly fee of \$20,000 for office space, utilities and administrative support. The total amounts of administrative service fees expensed for the three months and six months ended June 30, 2021 were \$60,000 and \$78,000, respectively. Upon completion of the Business Combination or the Company’s liquidation, the Company will cease paying these monthly fees.

Promissory Note - Related Party

On July 6, 2020, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering pursuant to a promissory note (the “Note”). This loan is non-interest bearing and payable on the earlier of June 30, 2021 or the completion of the Initial Public Offering. As of June 30, 2021 and December 31, 2020, the outstanding balances under the Promissory Note were \$0 and \$122,500.

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

Related Party Loans

In order to finance transaction costs in connection with the Initial Business Combination, the Sponsor, the Company's officers and directors or their affiliates may, but are not obligated to, loan the Company funds from time to time or at any time, as may be required (the "Working Capital Loans"). Each Working Capital Loan would be evidenced by a promissory note. The Working Capital Loans would either be paid upon consummation of the Business Combination, without interest, or, at the holder's discretion, up to \$1,500,000 of the Working Capital Loans may be converted into warrants at a price of \$1.00 per warrant that would be identical to Placement Warrants, including as to exercise price, exercisability and exercise period.

NOTE 6. COMMITMENTS

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans, if any, will be entitled to registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A common stock) pursuant to a registration rights agreement. These holders will be entitled to certain demand and "piggyback" registration rights. The holders of Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans may not sell these securities until the termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The underwriters were paid a cash underwriting discount of two percent (2.0%) of the gross proceeds of the Initial Public Offering and over-allotment of \$317,500,000, or \$6,350,000. In addition, the underwriters have earned an additional three and one half percent (3.50%) on \$317,500,000 of the gross proceeds of the Initial Public Offering and over-allotment, or \$11,112,500 ("Deferred Underwriting Commission") that will be paid upon consummation of the Company's Initial Business Combination. This commitment of \$11,112,500 has been recorded as deferred underwriting fee payable on the balance sheet as of June 30, 2021. The underwriting agreement provides that the Deferred underwriting fee will be waived by the underwriter if the Company does not complete its Initial Business Combination.

NOTE 7. WARRANTS

Redeemable Warrants

Each whole Redeemable Warrant is exercisable to purchase one share of Class A common stock and only whole warrants are exercisable. The Redeemable Warrants will become exercisable on the later of 30 days after the completion of the Initial Business Combination or 12 months from the closing of the Initial Public Offering. Each whole Redeemable Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50.

Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means that only a whole warrant may be exercised at any given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade requiring a purchase at least three units to receive or trade a whole warrant. The warrants will expire five years after the completion of the Initial Business Combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

If the shares issuable upon exercise of the warrants are not registered under the Securities Act within 60 business days following the Initial Business Combination, the Company will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and the Company will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, unless an exemption is available. In the event that the conditions in the immediately preceding sentence are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will the Company be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of the Initial Business Combination, the Company will use its reasonable best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the warrants. The Company will use its reasonable best efforts to cause the same to become effective within 60 business days following its Initial Business Combination and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if the Company's Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but the Company will be required to use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the warrants become exercisable, the Company may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption (the "30-day redemption period") to each warrant holder; and
- if, and only if, the reported last sale price of the Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to the warrant holders.

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of the Initial Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any founder shares held by the Sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, inclusive of interest earned on equity held in trust, available for the funding of the Initial Business Combination on the date of the consummation of the Initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's common stock during the 20 trading day period starting on the trading day prior to the day on which the Initial Business Combination is consummated (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described above will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Private Placement Warrants

The Sponsor purchased an aggregate of 5,333,333 Private Placement Warrants at a price of \$1.50 per whole warrant in a private placement that occurred simultaneously with the closing of the Initial Public Offering. Subsequently, the Sponsor purchased \$350,000 of Private Placement Warrants in conjunction with the partial exercise of the underwriters' overallotment option, which is payable to them upon the closing of the overallotment option

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

(representing 233,333 warrants). Each whole Private Placement Warrant is exercisable for one share of the Company's Class A common stock at a price of \$11.50 per share. A portion of the proceeds of the sale of Private Placement Warrants was added to the proceeds from the Initial Public Offering and held in the Trust Account, such at the time of the Company's Initial Public Offering, \$317,500,000 was deposited into the Trust Account (including \$17,500,000 from the exercise of the underwriter's over-allotment option). If the Initial Business Combination is not completed within 24 months from the closing of the Initial Public Offering, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Private Placement Warrants (including the Class A common stock issuable upon exercise of the Private Placement Warrants) will not be transferable, assignable or saleable until 30 days after the completion of the Initial Business Combination and they will not be redeemable so long as they are held by the Company's Sponsor or its permitted transferees. Otherwise, the Private Placement Warrants have terms and provisions that are identical to those of the Redeemable Warrants, including as to exercise price, exercisability and exercise period. If the Private Placement Warrants are held by holders other than the Sponsor or its permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by the holders on the same basis the Redeemable Warrants.

If holders of the Private Placement Warrants elect to exercise them on a cashless basis, they would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the "fair market value" (defined below) by (y) the fair market value. The "fair market value" shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of warrant exercise is sent to the warrant agent. The reason that the Company has agreed that these warrants will be exercisable on a cashless basis so long as they are held by the Sponsor, or its permitted transferees is because it is not known at this time whether they will be affiliated with us following the Initial Business Combination. If they remain affiliated with the Company, their ability to sell the Company's securities in the open market will be significantly limited. The Company expects to have policies in place that prohibit insiders from selling the Company's securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell the Company's securities, an insider cannot trade in the Company's securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could sell the shares of Class A common stock issuable upon exercise of the warrants freely in the open market, the insiders could be significantly restricted from doing so. As a result, the Company believes that allowing the holders to exercise such warrants on a cashless basis is appropriate.

The Company's Sponsor has agreed not to transfer, assign or sell any of the Private Placement Warrants (including the Class A common stock issuable upon exercise of any of these warrants) until the date that is 30 days after the date the Company completes its Initial Business Combination.

At June 30, 2021, there were 7,937,500 Public Warrants and 5,566,666 Private Placement Warrants outstanding. The Company accounts for the Public Warrants and Private Placement Warrants (together, the "Warrants") in accordance with the guidance contained in ASC 815-40. Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability.

The accounting treatment of derivative financial instruments required that the Company record the Warrants as derivative liabilities at fair value upon the closing of the Initial Public Offering. The Public Warrants were allocated a portion of the proceeds from the issuance of the Units equal to its fair value. The Company recognized gains in connection with changes in the fair value of warrant liabilities of \$13,750,541 within change in fair value of warrant liabilities in the Statements of Operations for the three months ended June 30, 2021, and \$14,370,084 for the six months ended June 30, 2021.

The warrant liabilities are subject to re-measurement at each balance sheet date. With each such re-measurement, the warrant liabilities are adjusted to current fair value, with the change in fair value recognized in the Company's

HAYMAKER ACQUISITION CORP. III
NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

Statement of Operations. The Company will reassess the classification at each balance sheet date. If the classification changes as a result of events during the period, the Warrants will be reclassified as of the date of the event that causes the reclassification.

NOTE 8. STOCKHOLDERS' EQUITY

Preferred stock — The Company is authorized to issue 1,000,000 shares of \$0.0001 par value preferred stock. At June 30, 2021 and December 31, 2020, there were no shares of preferred stock issued or outstanding.

Class A common stock — The Company is authorized to issue up to 200,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of the Class A common stock are entitled to one vote for each share. At June 30, 2021 and December 31, 2020, there were 2,944,740 and no shares of Class A common stock issued or outstanding, excluding 28,805,260 and no shares of Class A common stock subject to possible redemption, respectively.

Class B common stock — The Company is authorized to issue up to 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At June 30, 2021 and December 31, 2020, there were 7,937,500 and 8,625,000 shares of Class B common stock issued and outstanding, respectively.

Holders of Class A common stock and Class B common stock will vote together as a single class on all other matters submitted to a vote of shareholders except as required by law. Prior to an initial Business Combination, holders of Class B common stock will have the right to elect all of the Company's directors and may remove members of the board of directors for any reason.

The Class B common stock will automatically convert into shares of Class A common stock concurrently with or immediately following the consummation of an initial Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like, and subject to further adjustment. In the case that additional shares of Class A common stock or equity-linked securities are issued or deemed issued in connection with an initial Business Combination, the number of shares of Class A common stock issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the total number of shares of Class A common stock outstanding after such conversion (after giving effect to any redemptions of shares of Class A common stock by public stockholders), including the total number of shares of Class A common stock issued, or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the company in connection with or in relation to the consummation of the initial Business Combination, excluding any shares of Class A common stock or equity-linked securities or rights exercisable for or convertible into shares of Class A common stock issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Warrants issued to the Sponsor, officers or directors upon conversion of working capital loans, provided that such conversion of Founder Shares will never occur on a less than one-for-one basis.

NOTE 9. FAIR VALUE MEASUREMENTS

The following table presents information about the Company's financial assets that are measured at fair value on a recurring basis at June 30, 2021 and December 31, 2020, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

<u>Description</u>	<u>Amount at Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
June 30, 2021				
Assets				
Investments held in Trust Account:				
Money Market investments	\$317,505,781	\$317,505,781	\$ —	\$ —
Liabilities				
Warrant liability – Public Warrants	\$ 8,334,375	\$ 8,334,375	\$ —	\$ —
Warrant liability – Private Placement Warrants	\$ 5,900,666	\$ —	\$ —	\$5,900,666
December 31, 2020				
Assets				
Investments held in Trust Account:				
Money Market investments	\$ —	\$ —	\$ —	\$ —
Liabilities				
Warrant liability – Public Warrants	\$ —	\$ —	\$ —	\$ —
Warrant liability – Private Placement Warrants	\$ —	\$ —	\$ —	\$ —

The Company utilized a Monte Carlo simulation model to value the Public Warrants at issuance, and recognizes in the statement of operations changes in fair value in each subsequent reporting period based on trading price. The Company utilizes a Modified Black Scholes model to value the Private Placement warrants at issuance, and each subsequent reporting period, with changes in fair value recognized in the statement of operations. The estimated fair value of the warrant liabilities that are not based on trading price are determined using Level 3 inputs. Inherent in a binomial options pricing model are assumptions related to expected share-price volatility, expected life, risk-free interest rate and dividend yield. The Company estimates the volatility of its common stock based on historical volatility that matches the expected remaining life of the warrants. The risk-free interest rate is based on the U.S. Treasury zero-coupon yield curve on the grant date for a maturity similar to the expected remaining life of the warrants. The expected life of the warrants is assumed to be equivalent to their remaining contractual term. The dividend rate is based on the historical rate, which the Company anticipates to remain at zero.

Transfers to/from Levels 1, 2, and 3 are recognized at the end of each reporting period. The estimated fair value of the Public Warrants transferred from a Level 3 measurement to a Level 1 fair value measurement in April 2021 after the Public Warrants were separately listed and traded.

NOTES TO CONDENSED FINANCIAL STATEMENTS
JUNE 30, 2021
(UNAUDITED)

The following table provides the significant inputs to the Monte Carlo Simulation for the fair value of the Public Warrants:

	As of March 4, 2021
Stock Price on Valuation Date	\$ 10.00
Strike price (Exercise Price Share)	\$ 11.50
Probability of completing a Business Combination	85.0%
Term (in years)	6.6
Volatility	4% pre-merger / 34% post-merger
Risk-free rate	1.12%
Fair value of warrants	\$ 2.11

The following table provides the significant inputs to the Modified Black Scholes model for the fair value of the Private Placement Warrants:

	As of March 4, 2021	As of June 30, 2021
Stock price	\$ 10.00	\$ 9.68
Strike price	\$ 11.50	\$ 11.50
Probability of completing a Business Combination	85.0%	100.0%
Dividend yield	— %	— %
Term (in years)	6.6	6.3
Volatility	27.4%	15.2%
Risk-free rate	1.10%	1.10%
Fair value of warrants	\$ 2.13	\$ 1.06

The following table presents the changes in the fair value of warrant liabilities:

	Private Placement Warrants	Public Warrants	Warrant Liabilities
Fair value as of December 31, 2020	\$ —	\$ —	\$ —
Initial measurement as of March 4, 2021	11,360,000	15,825,000	27,185,000
Additional warrants issued in over-allotment	497,000	923,125	1,420,125
Change in valuation inputs or other assumptions	(5,956,334)	(8,413,750)	(14,370,084)
Fair value as of June 30, 2021	<u>\$ 5,900,666</u>	<u>\$ 8,334,375</u>	<u>\$ 14,235,041</u>

NOTE 10. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

References in this report (the “Quarterly Report”) to “we,” “us” or the “Company” refer to Haymaker Acquisition Corp. III. References to our “management” or our “management team” refer to our officers and directors, and references to the “Sponsor” refer to Haymaker Sponsor III, LLC. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Special Note Regarding Forward-Looking Statements

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Exchange Act that are not historical facts, and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Form 10-Q including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding the Company’s financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek” and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s final prospectus for its Initial Public Offering filed with the U.S. Securities and Exchange Commission (the “SEC”). The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at www.sec.gov. Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

Overview

We are a blank check company incorporated on July 6, 2020 as a Delaware corporation and formed for the purpose of effectuating a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this Quarterly Report as our “Business Combination”. We intend to effectuate our Business Combination using cash from the proceeds of the initial public offering and the private placement of the private placement warrants, the proceeds of the sale of our shares in connection with our Business Combination (pursuant to forward purchase agreements or backstop agreements we may enter into following the consummation of the initial public offering or otherwise), shares issued to the owners of the target, debt issued to bank or other lenders or the owners of the target, or a combination of the foregoing.

[Table of Contents](#)

Results of Operations

We have neither engaged in any operations nor generated any operational revenues to date. Our only activities for the three months ended June 30, 2021 were organizational activities, those necessary to prepare for the initial public offering, described below, and, after our initial public offering, identifying a Business Combination candidate. We do not expect to generate any operating revenues until after the completion of our Business Combination. We generate non-operating income in the form of interest income on cash and cash equivalents held after the Initial Public Offering. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended June 30, 2021, we had net income of \$13,238,824, which resulted from warrant issuance costs of \$4,199 associated with the Initial Public Offering, operating and formation costs of \$459,768, and franchise tax expense of \$39,126, which was partially offset by the change in fair value of warrant liabilities of \$13,750,541, and an unrealized loss on marketable securities held in Trust Account in the amount of \$8,624.

For the six months ended June 30, 2021, we had net income of \$9,295,450, which resulted from warrant issuance costs of \$966,646 associated with the Initial Public Offering, operating and formation costs of \$518,328, and franchise tax expense of \$88,441, which was partially offset by the change in fair value of warrant liabilities of \$14,370,084, an excess of Private Placement Warrants fair value over purchase price of \$3,507,000 and an unrealized gain on marketable securities held in Trust Account in the amount of \$5,781.

Liquidity and Capital Resources

As of June 30, 2021 and December 31, 2020, the Company had \$484,090 and \$1,594 in cash held outside of the Trust Account, respectively, and a working capital balance of \$709,775 and \$(120,906), respectively.

The Company's liquidity needs prior to the consummation of the Initial Public Offering were satisfied through the proceeds of \$25,000 from the sale of the Founder Shares, and a loan of up to \$300,000 under an unsecured and non-interest bearing promissory note. Subsequent to the consummation of the Initial Public Offering, the Company's liquidity will be satisfied through the net proceeds from the private placement held outside of the Trust Account.

In addition, in order to finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of the Sponsor, or certain of our officers and directors may, but are not obligated to, loan us funds as may be required ("Working Capital Loans"). As of June 30, 2021, there were no amounts outstanding under any Working Capital Loan.

For the six months ended June 30, 2021, net cash used in operating activities was \$1,017,043, which was due to the change in fair value of warrants of \$14,370,084, changes in operating assets and liabilities of \$410,274, and unrealized gain on investments in the Trust Account of \$5,781, partially offset by our net income of \$9,295,450, excess of private placement warrants fair value over purchase price in the amount of \$3,507,000 and expensed offering costs of \$966,646.

For the six months ended June 30, 2021, net cash used in investing activities was \$317,500,000, which was due to the amount of net proceeds from the initial public offering being deposited to the Trust Account.

For the six months ended June 30, 2021, net cash provided by financing activities was \$318,999,539, which was comprised of \$311,150,000 in proceeds from the issuance of units in the initial public offering net of underwriter's discount paid, \$8,350,000 in proceeds from the issuance of warrants in a private placement to our Sponsor, and proceeds from issuance of Sponsor Note of \$41,500, offset in part by payment of \$377,961 for offering costs associated with the initial public offering and repayment of the outstanding balance on the promissory note to our Sponsor of \$164,000.

We have incurred and expect to continue to incur significant costs in pursuit of our acquisition plans. We may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our business combination or because we become obligated to redeem a significant number of public shares upon completion of our business combination, in which case we may issue additional securities or incur debt in connection with such business combination.

Off-Balance Sheet Arrangements

We did not have any off-balance sheet arrangements as of June 30, 2021 or December 31, 2020.

Contractual Obligations

Registration Rights

The holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A common stock issuable upon the exercise of the Private Placement Warrants) will have registration rights to require the Company to register a sale of any of its securities held by them pursuant to a registration rights agreement. The holders of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option to purchase up to 4,500,000 additional Units to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. On March 5, 2021 the underwriters purchased an additional 1,750,000 Units at an offering price of \$10.00 per Unit, generating additional gross proceeds of \$17,500,000 to the Company.

The underwriters were paid a cash underwriting fee of \$0.20 per Unit, or \$6,350,000 in the aggregate. In addition, \$0.35 per Unit, or \$11,112,500 in the aggregate will be payable to the underwriters for deferred underwriting commissions. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

The underwriters will be entitled to an additional fee of \$550,000 upon closing of the underwriters’ over-allotment option and \$962,500 in deferred underwriting commissions if the remaining portion of the over-allotment option is exercised in full.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

Common stock subject to possible redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. As of June 30, 2021 and December 31, 2020, 28,805,260 and no shares of Class A common stock subject to possible redemption are presented at redemption value as temporary equity, outside of the stockholders’ equity section of the Company’s balance sheet, respectively.

[Table of Contents](#)

Net Earnings (Loss) Per Common Share

Net earnings (loss) per share is computed by dividing net earnings by the weighted-average number of shares of common stock outstanding during the period. The Company has not considered the effect of the warrants sold in the Public Offering and Private Placement to purchase an aggregate of 13,504,166 shares in the calculation of diluted loss per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company's statement of operations includes a presentation of earnings (loss) per share for common shares subject to possible redemption and applies the two-class method in calculating earnings (loss) per share. Net earnings per common share, basic and diluted, for Class A redeemable common stock is calculated by dividing the allocable interest income earned on the Trust Account, net of applicable franchise and income taxes, by the weighted average number of Class A redeemable common stock outstanding since original issuance. Net loss per share, basic and diluted, for Class A and Class B non-redeemable common stock is calculated by dividing the net loss, adjusted for income attributable to Class A redeemable common stock, by the weighted average number of Class B non-redeemable common stock outstanding for the period. Class B non-redeemable common stock includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

Warrant Liabilities

The Company accounts for warrants as either equity-classified or liability-classified instruments based on an assessment of the warrant's specific terms and applicable authoritative guidance in ASC 480, *Distinguishing Liabilities from Equity* ("ASC 480") and ASC 815, *Derivatives and Hedging* ("ASC 815"). The assessment considers whether the warrants are freestanding financial instruments pursuant to ASC 480, meet the definition of a liability pursuant to ASC 480, and whether the warrants meet all of the requirements for equity classification under ASC 815, including whether the warrants are indexed to the Company's own common stock, among other conditions for equity classification. This assessment, which requires the use of professional judgment, is conducted at the time of warrant issuance and as of each subsequent quarterly period end date while the warrants are outstanding.

For issued or modified warrants that meet all of the criteria for equity classification, the warrants are required to be recorded as a component of additional paid-in capital at the time of issuance. For issued or modified warrants that do not meet all the criteria for equity classification, the warrants are required to be recorded at their initial fair value on the date of issuance, and each balance sheet date thereafter. Changes in the estimated fair value of the warrants are recognized as a non-cash gain or loss on the statements of operations. The initial fair value of the Public Warrants was estimated using a Monte Carlo simulation approach and the initial and subsequent fair value of the Private Warrants was estimated using a Modified Black-Scholes model. The subsequent measurement of the fair value of the Public Warrants was measured using quoted market prices.

Recent Accounting Standards

In August 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40)* ("ASU 2020-06") to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity's own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity's own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. We are currently assessing the impact, if any, that ASU 2020-06 would have on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

This item is not applicable as we are a smaller reporting company.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of June 30, 2021, due solely to the material weakness in our internal control over financial reporting described in Item 4. Controls and Procedures included in our Quarterly Report on Form 10-Q as filed with the SEC on May 20, 2021. In light of this material weakness, we performed additional analysis as deemed necessary to ensure that our unaudited interim financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Quarterly Report on Form 10-Q present fairly in all material respects our financial position, results of operations and cash flows for the period presented.

Changes in Internal Control Over Financial Reporting

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over

financial reporting. In light of the restatement of our financial statements included in this Quarterly Report, we plan to enhance our processes to identify and appropriately apply applicable accounting requirements to better evaluate and understand the nuances of the complex accounting standards that apply to our financial statements. Our plans at this time include providing

[Table of Contents](#)

enhanced access to accounting literature, research materials and documents and increased communication among our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in our final prospectus for our Initial Public Offering filed with the SEC on March 3, 2021. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. Except as set forth below, as of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in our final prospectus for our Initial Public Offering filed with the SEC on March 3, 2021. We may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

Our warrants are accounted for as liabilities and the changes in value of our warrants could have a material effect on our financial results.

On April 12, 2021, the Acting Director of the Division of Corporation Finance and Acting Chief Accountant of the SEC together issued a statement regarding the accounting and reporting considerations for warrants issued by special purpose acquisition companies entitled “Staff Statement on Accounting and Reporting Considerations for Warrants Issued by Special Purpose Acquisition Companies (the “SEC Statement”). Specifically, the SEC Statement focused on certain settlement terms and provisions related to certain tender offers following a business combination, which terms are similar to those contained in the warrant agreement governing our warrants. As a result, included on our balance sheet as of June 30, 2021 contained elsewhere in this report are derivative liabilities related to embedded features contained within our warrants. Accounting Standards Codification 815, Derivatives and Hedging (“ASC 815”) provides for the remeasurement of the fair value of such derivatives at each balance sheet date, with a resulting non-cash gain or loss related to the change in the fair value being recognized in earnings in the statements of operations. As a result of the recurring fair value measurement, our financial statements and results of operations may fluctuate quarterly based on factors which are outside of our control. Due to the recurring fair value measurement, we expect that we will recognize noncash gains or losses on our warrants each reporting period and that the amount of such gains or losses could be material.

Warrants that are accounted for as a warrant liability will be recorded at fair value upon issuance with changes in fair value each period reported in earnings, which may have an adverse effect on the market price of our common stock and/or may make it more difficult for us to consummate an initial business combination.

We account for the 13,504,166 warrants issued in connection with the initial public offering (including the 7,937,500 warrants sold as part of the units in the initial public offering and the 5,566,666 private placement warrants) in accordance with the guidance contained in Derivatives and Hedging — Contracts in Entity’s Own Equity (ASC 815-40). Such guidance provides that because the warrants do not meet the criteria for equity treatment thereunder, each warrant must be recorded as a liability. Accordingly, we will classify each warrant as a liability at its fair value. This liability is subject to re-measurement at each balance sheet date. With each such remeasurement, the warrant liability will be adjusted to fair value, with the change in fair value recognized in our statement of operations and therefore our reported earnings. The impact of changes in fair value on earnings may have an adverse effect on the market price of our common stock. In addition, potential targets may seek a SPAC that does not have warrants that are accounted for as a warrant liability, which may make it more difficult for us to consummate an initial business combination with a target business.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On March 4, 2021, the Company consummated the Initial Public Offering of 30,000,000 units, at \$10.00 per Unit, generating gross proceeds of \$300,350,000.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 5,333,333 warrants at a price of \$1.50 per Private Placement Warrant in a private placement generating gross proceeds of \$8,000,000.

On March 5, 2021 the over-allotment was partially exercised and 1,750,000 additional Units were sold at an offering price of \$10.00 per Unit, generating gross proceeds of \$17,500,000. In connection with the exercise of the over-allotment option, the Company sold 233,333 Private Placement Warrants to the Sponsor at a purchase price of \$1.50 per Private Placement Warrant, generating gross proceeds of \$350,000.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Haymaker Acquisition Corp. III

Date: August 17, 2021

By: /s/ Steven J. Heyer

Name: Steven J. Heyer

Title: Chief Executive Officer

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13A-14(A) UNDER THE SECURITIES EXCHANGE ACT OF 1934,
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Steven J. Heyer, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Haymaker Acquisition Corp. III;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, is made known to us by others within those entities, particularly during the period in which this report is being prepared; and
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
